

PRODUCT NAME: **Ultra**

1. IDENTIFICATION OF MATERIAL & SUPPLIER

NAME: Ecowash Solutions Pty Ltd
ADDRESS: 41 Chard Rd, BROOKVALE NSW 2100
PHONE: 02 9938 9444
FAX: 02 9905 7222
EMERGENCY NO: 02 9938 9444
WEBSITE: www.ecowashsolutions.com.au
SYNONYM(S) ECOWASH ULTRA
USE(S) LAUNDRY POWDER
MSDS DATE: 04 July 2011

2. HAZARDS IDENTIFICATION

CLASSIFIED AS HAZARDOUS ACCORDING TO NOHSC CRITERIA

RISK PHRASES

R36/38 Irritating to eyes and skin.

SAFETY PHRASES

S26 In case of contact with eyes, rinse immediately with plenty of water and contact a doctor or Poisons Information Centre.

NOT CLASSIFIED AS A DANGEROUS GOOD BY THE CRITERIA OF THE ADG CODE

UN No.	None Allocated	DG Class	None Allocated	Subsidiary Risk(s)	None Allocated
Pkg Group	None Allocated	Hazchem Code	None Allocated	EPG	None Allocated

3. COMPOSITION/INFORMATION ON INGREDIENTS

INGREDIENT	FORMULA	CAS NO.	CONTENT
ALKALINE SALT(S)	Not Available	Not Available	→60%
SURFACTANT(S)	Not Available	Not Available	←10%
INERT INGREDIENTS	Not Available	Not Available	remainder

4. FIRST AID MEASURES

EYE Hold eyelids apart and flush continuously with water. Continue until advised to stop by the Poisons Information Centre, a doctor, or for at least 15 minutes. Keep patient calm.

INHALATION If over exposure occurs leave exposure area immediately. If irritation persists, seek medical attention.

SKIN Remove contaminated clothing and gently flush affected areas with water. Continue to flush with water until skin no longer feels soapy. Seek medical attention. Launder clothing before reuse.

INGESTION For advice, contact a Poison Information Centre on 13 11 26 (Australia Wide) or a doctor.

ADVICE TO DOCTOR Treat symptomatically

FIRST AID FACILITIES Eye wash and hand wash basin are recommended.

5. FIRE FIGHTING MEASURES

FLAMMABILITY	Non-flammable. May evolve toxic gases (hydrocarbons, carbon oxides) when heated to decomposition. May also evolve inorganic salts sulphur oxides and water vapour when heated to decomposition.
FIRE & EXPLOSION	Non-flammable. Evacuate area and contact emergency services. Remain upwind and notify those downwind of hazard. Wear full protective equipment including Self Contained Breathing Apparatus (SCBA) when combating fire. Use water-fog to cool intact containers and nearby storage areas.
EXTINGUISHING	Non-flammable. Prevent contamination of drains or waterways, absorb runoff with sand or similar.
HAZCHEM CODE	None Allocated

6. ACCIDENTAL RELEASE MEASURES

SPILLAGE	If spilt, absorb with sand or similar. Wear splash-proof goggles and PVC/rubber gloves. For large amounts, wear coveralls and rubber boots. Collect and place in sealable containers for disposal. Caution: Spill site may be slippery.
-----------------	---

7. STORAGE AND HANDLING

STORAGE	Store in cool, dry, well-ventilated area, removed from oxidising agents, acids, active metals, direct sunlight, heat sources and foodstuffs. Ensure containers are adequately labelled, protected from physical damage and sealed when not in use. Large storage areas should be bunded and have appropriate ventilation systems.
HANDLING	Before use carefully read the product label. Use of safe work practices are recommended to avoid eye or skin contact and inhalation. Observe good personal hygiene, including washing hands before eating. Prohibit eating, drinking and smoking in contaminated areas.

8. EXPOSURE CONTROLS / PERSONAL EQUIPMENT

EXPOSURE STANDARDS	No exposure standard(s) allocated.
BIOLOGICAL LIMIT VALUES	No biological limit allocated.
ENGINEERING CONTROLS	Do not inhale vapours. Use in well ventilated areas. In poorly ventilated areas, mechanical extraction ventilation is recommended.
PPE	Wear splash-proof goggles and rubber or PVC gloves. When using large quantities or where heavy contamination is likely, wear a face shield, coveralls and boots.

9. PHYSICAL & CHEMICAL PROPERTIES

APPEARANCE:	BLUE POWDER	SOLUBILITY (WATER):	SOLUBLE
ODOUR:	SLIGHT CITRUS ODOUR	SPECIFIC GRAVITY:	NOT AVAILABLE
pH:	→ 11.5	% VOLATILES:	3 % (Approximately)
VAPOUR PRESSURE:	NOT AVAILABLE	FLAMMIBILITY:	NON FLAMMABLE
VAPOUR DENSITY:	NOT AVAILABLE	FLASH POINT:	NOT RELEVANT
BOILING POINT:	NOT AVAILABLE	UPPER EXPLOSION LIMIT:	NOT RELEVANT
MELTING POINT:	NOT AVAILABLE	LOWER EXPLOSION LIMIT:	NOT RELEVANT
EVAPORATION RATE:	NOT AVAILABLE	AUTOIGNITION:	NOT AVAILABLE

10. STABILITY & REACTIVITY

- MATERIAL TO AVOID:** Incompatible with oxidising agents (e.g. peroxides), acids (e.g. sulphuric acid), active metals (e.g. aluminium, potassium, magnesium), and heat and ignition sources. Will react vigorously or violently with acids generating carbon dioxide.
- DECOMPOSITION:** May evolve toxic gases (hydrocarbons, carbon oxides) when heated to decomposition. May also evolve inorganic salts sulphur oxides and water vapour when heated to decomposition.

11. TOXICOLOGICAL INFORMATION

- HEALTH HAZARD SUMMARY** This product has the potential to cause adverse health effects with eye contact or prolonged skin contact. Due to the low vapour pressure of this product an inhalation hazard is not anticipated with normal use. Use safe work practices to avoid direct eye or skin contact and vapour/ mist generation-inhalation.
- EYE** May result in pain, redness, corneal burns and ulceration with possible permanent damage with prolonged contact.
- INHALATION** Over exposure may result in irritation of the nose & throat with coughing, nausea and headache. Low vapour pressure reduces the inhalation hazard.
- SKIN** Prolonged and repeated contact may result in irritation, skin rash, dermatitis, blisters and burns.
- INGESTION** Ingestion may result in ulceration to the mouth and throat with nausea and vomiting.
- TOXICITY DATA** No LD50 data available for this product.

12. ECOLOGICAL INFORMATION

- ENVIRONMENT** WATER: If released to waterways, alkaline products may change the pH of the waterway. Fish will die if the pH reaches 10-11 (goldfish 10.9, bluegill 10.5). SOIL: May leach to groundwater with toxic effects on aquatic life as above. ATMOSPHERE: Not expected to reside in the atmosphere. Drops or particles released to atmosphere should be removed by gravity and/or be rained out.

13. DISPOSAL CONSIDERATION

- WASTE DISPOSAL** For small amounts absorb with sand, vermiculite or similar and dispose of to an approved landfill site. Contact the manufacturer for additional information if larger amounts are involved. Prevent contamination of drains and waterways as aquatic life may be threatened and environmental damage may result.
- LEGISLATION** Dispose of in accordance with relevant local legislation.

14. TRANSPORT INFORMATION

NOT CLASSIFIED AS A DANGEROUS GOOD BY THE CRITERIA OF THE ADG CODE

- SHIPPING NAME:** None Allocated
- | | | | | | |
|------------------|----------------|---------------------|----------------|---------------------------|----------------|
| UN No. | None Allocated | DG CLASS | None Allocated | SUBSIDIARY RISK(S) | None Allocated |
| Pkg GROUP | None Allocated | HAZCHEM CODE | None Allocated | EPG | None Allocated |

15. REGULATORY INFORMATION

POISON SCHEDULE	Classified as a Schedule 5 (S5) Poison using the criteria in the Standard for the Uniform Scheduling of Drugs and Poisons (SUSDP).
AICS	All chemicals listed on the Australian Inventory of Chemical Substances (AICS).

16. OTHER INFORMATION

ADDITIONAL INFORMATION: Additional Information

EXPOSURE STANDARDS - TIME WEIGHTED AVERAGES: Exposure standards are established on the premise of an 8 hour work period of normal intensity, under normal climatic conditions and where a 16 hour break between shifts exists to enable the body to eliminate absorbed contaminants. In the following circumstances, exposure standards must be reduced: strenuous work conditions; hot, humid climates; high altitude conditions; extended shifts (which increase the exposure period and shorten the period of recuperation).

ABBREVIATIONS:

ADB - Air-Dry Basis.

CAS# - Chemical Abstract Service number - used to uniquely identify chemical compounds.

CNS - Central Nervous System.

IARC - International Agency for Research on Cancer.

M - moles per litre, a unit of concentration.

mg/m³ - Milligrams per cubic metre.

NOS - Not Otherwise Specified.

pH - relates to hydrogen ion concentration using a scale of 0 (high acidic) to 14 (highly alkaline).

ppm - Parts Per Million.

TWA/ES - Time Weighted Average or Exposure Standard.

PERSONAL PROTECTIVE EQUIPMENT GUIDELINES: The recommendation for protective equipment contained within this report is provided as a guide only. Factors such as method of application, working environment, quantity used, product concentration and the availability of engineering controls should be considered before final selection of personal protective equipment is made.

HEALTH EFFECTS FROM EXPOSURE: It should be noted that the effects from exposure to this product will depend on several factors including: frequency and duration of use; quantity used; effectiveness of control measures; protective equipment used and method of application. Given that it is impractical to prepare a report which would encompass all possible scenarios, it is anticipated that users will assess the risks and apply control methods where appropriate.

This document has been compiled by the manufacturer of the product and serves as the manufacturer's Material Safety Data Sheet ('MSDS'). It is based on information concerning the product which has been provided to Ecowash Solutions obtained from third party sources and is believed to represent the current state of knowledge as to the appropriate safety and handling precautions for the product at the time of issue.

While Ecowash Solutions have taken all due care to include accurate and up-to-date Information in this MSDS, it does not provide any warranty as to accuracy or completeness. As far as lawfully possible, Ecowash Solutions accepts no liability for any loss, injury or damage (including consequential loss) which may be suffered or incurred by any person as a consequence of their reliance on the information contained in this MSDS.
