

Product Data Sheet

Commercial Rinse Aid

Commercial strength dish machine rinse aid to eliminate streaking and spotting. A must, for the best results.

Product Description

Commercial Rinse Aid is a specially formulated, concentrated product to promote quick, spot free drying of china, plastics, glassware and cutlery. It is recommended for use in your dishwasher and should be connected to special built-in dispensing unit.

Characteristics

- Non Flammable
- pH Neutral
- Eliminates streaking & spotting
- Quick drying formula
- Fully biodegradable

Tools / Safety Equipment

- Rubber Gloves
- Goggles

Safety

Avoid contact with skin and eyes.

Application Procedure

1. Read MSDS prior to use.

2. Read the safety instructions on label before use.
3. Poor drying and spots are the result of insufficient rinse aid; if this is occurring refill your machine with Commercial Rinse Aid.
4. If blue striking occurs, this is a result of too much rinse aid and dosage should be reduced.
5. If in doubt contact your Ecowash Representative.

First Aid

- If poisoning occurs, contact a doctor or Poisons Information Centre (Ph: 131 126)
- If swallowed, do NOT induce vomiting. Give a glass of water
- If skin contact occurs, remove contaminated clothing and wash skin thoroughly.
- If in eyes, hold eyes open, flood with water continuously for at least 15mins and see a doctor.

Pack Sizes

3 x 5Lts, 25Lts
